Find us on 5175, Avenue Kaungeji, quartier Musompo residentiel, Kolwezi , Lualaba DR Congo

And 355, Chemin Public avenue, hewa bora, commune kampemba, Lubumbashi haut Katanga DR Congo

**We offer services that are adapted to our customers because customer satisfaction remains our main concern.**

## Mission

To provide Engineering services in Design, Construction (Installation), Commissioning, Procurement and Project management in the Electrical Low & High Voltage, Control and Automation sectors and civil work.  
To offer an healthy working environment for offices, workshops, stores and others...

## Vision

To offer expertise in Mining, Power and Industry sector, according to the customer's needs to any standard worldwide. Special focus in East and Central Africa, with Target of the Entire Africa region

## Value

To closely work with the customer, fully respecting their values and needs while Enhancing principals of better Environmental management by applying the code of conduct and ethical instructions

## A. ELECTRICAL

- Electrical Tools and equipment supply and services (LV, MV and HV);
- Electrical Wiring System Maintenance;
- Supply of any critical electrical parts;
- Hoses and Fitting supply;
- Automation
- Variable Speed Drives maintenance, installation and operation
- Supply of Electrical/Electronic equipment's
- Building electrical systems design, installation
- Substation maintenance
- Lightning protection and detection
- Dissolve oil transformer (DGA)
- Remote and control panel

## B. CIVIL WORK

- Project studies
- Construction
- Inspection and supply materials
- Supervision of works
- Inspection and control of works (for approval)

## C. MAINTENANCE

- Pre-PM Cleaning equipment;
- Maintenance of greasing system
- Maintenance of Fire Suppression system
- Supervision of works
- Inspection and control of works (for approval)
- Dust suppression supply materials and services

## D. CHILLER SERVICES

- Maintenance chiller system.
- Compressor dryer.
- Lazer cutter machine,
- Installation and Maintenance of Air Conditionner
- Container refrigeration

## CONNEXE SERVICES

- HVAC & Chillers supply, installation, commissioning, maintenance and Inspection
- Installation of Electrical Services in Buildings and Factories
- Installation of High Voltage Substations from 11kV up to 220kV.
- Testing and commissioning of Substations up to 220kV, Generators and
- Power line construction up to 66kV.
- Control Design, and Commissioning of Motor Drives and Controls.
- Conversion of systems to use of Programmable Logic Controllers and
- Jointing
- Workforce labour
- Supply of MPT Products (Mechanical Power Transmission product) : Bearing, Gearings, pumps, couplings...
- Supply of instrumentation products: Level Sensor, Flow meters, Density meters, valves...

## PROJECTS MANAGED BEFORE BY THE CEO IN THE PREVIOUS COMPANIES

**1. ABB :** installation work/KCC MV Borads (TSM and TCC)

**2. KCC**

- Substation annual Maintenance,
- Drives Maintenance & Formation,
- Electrical safety remedial work,
- Maintenance of KTC CM5 chiller.

**3. MUMI**

- Lightning detection and protection services

**4. METALKOL**

- Electrical Installation at new laboratory building
- supply of painting materials

**5. Ruashi mining**

- Supply of oil maintenance of main transformer
